## **Notice of Norfolk Southern Lane Closures** **Update #1**

**Dear Valued Customers,**

As indicated in our [previous advisory](#), Norfolk Southern closed many lanes earlier this month. We are pleased to announce that **connections between New Orleans, Louisiana and Savannah, Georgia will be serviced by the CSX**. This connection is available for bookings today and established bookings have already been shifted to the CSX routing.

Alternative routings for the other NS lane closures are still being established. We appreciate your patience at this time.

Any updates to our services will be announced in additional advisories. For further questions, please reach out to your local ONE representative.

**Sincerely,**  
**Ocean Network Express (North America) Inc.**
